RESEARCH INTERESTS

I am interested in enabling novel interactive techniques in Mixed Reality (MR). So far, I have explored sharing physical surfaces and creating virtual replicas for remote MR collaboration [J3], 360° Video VR telepresence with 5G millimeter-wave and edge computing [J2], and tracking assembly tasks (e.g., Lego, furniture) with UHF-RFID sensing and Bayesian inference [J1]. Recently, I am trying to enhance the immersion, reality, and interactivity of mixed-reality remote collaboration with the emerging machine learning technologies such as Neural Radiance Field, 3D diffusion, and LLMs.

EDUCATION

University of British Columbia, Vancouver, BC Sept 2021 – present
Ph.D. in Computer Science
Advisor: Dr. Robert Xiao

University of Michigan, Ann Arbor, MI Aug 2019 – April 2021
M.S. in Computer Science and Engineering
Advisors: Dr. Nikola Banovic and Dr. Alanson Sample

New York University Shanghai, Shanghai, China Aug 2015 – May 2019
B.S. with double major in Computer Science and Interactive Media Arts
Graduated with Magna Cum Laude

RESEARCH EXPERIENCE

Graduate Research Assistant. *University of British Columbia, Vancouver, BC* Sept 2021 - present
X Lab. Advised by Dr. Robert Xiao

Enhancing the multi-modal interactivity of remote shared experience in AR/VR. So far, I have explored physical surface sharing and ad-hoc virtual replica creation for remote MR collaboration [J3], and 360° Video VR telepresence with 5G millimeter wave and multi-access edge computing [J2].

Research Assistant. *University of Michigan, Ann Arbor, MI* Mar 2020 – April 2021
Computational HCI Lab. Advised by Dr. Nikola Banovic and Dr. Alanson Sample

Conducted a research project as the first author on inferring assembly structures from user behaviors [J1]. This work utilized UHF-RFID sensing to profile the movement data of building blocks during assembly tasks, and then inferred the structures being built in real-time given the movement profile with Markov Chain Monte Carlo.

Research Assistant. *University of Michigan, Ann Arbor, MI* Jan 2020 – April 2020, Jan 2021 – April 2021
Secure Cloud Manufacturing Group. Advised by Dr. Kira Barton

Created an educational Virtual Manufacture Space in VR for the Detroit Area Pre-college Engineering Program (DAPCEP). Presented two iterations of the project, based on VR and WebGL, on DAPCEP 2020 and DAPCEP 2021.

Undergraduate Research Assistant. *New York University, New York City, NY* Jan 2018 – Dec 2018
New York University – Guggenheim. Conserving Computer-based Art Initiative. Advised by Prof Deena Engel

Conducted code analysis for a software-based art: *Color Panel*, by John F. Simon Jr. 1998. Compiled the results of code analysis and suggestions for conservation in a 20-page report archived by the Guggenheim Museum.

TEACHING AND MENTORING

Graduate Teaching Assistant Sept 2022 – Dec 2022
University of British Columbia, Vancouver, BC
CPSC 554X – Machine Learning and Signal Processing. Duties: grading and responding to student questions.

Learning Assistant Feb 2019 – May 2019
New York University Shanghai, Shanghai, China
CSCI-SHU 101 Introduction to Computer Science. Duties: holding tutoring office hours, conducting review sessions, and facilitating class activities. Received award for “Excellent Tutoring” and “Most Appointed Office Hour”.

Undergraduate Mentoring

Dieter Frehlich, undergraduate student at *University of British Columbia*
Junkai (Kelvin) Ding, undergraduate student at *University of British Columbia*
James Riddell, undergraduate student at *University of British Columbia*, then M.S. at *University of Waterloo*
Keylonnie Miller, undergraduate student at *University of Michigan*, then *Facebook*

ACADEMIC SERVICE

Reviewer, ISMAR 2024 Journal/Conference, CHI 2024, UIST 2023, CHI 2023

PROFESSIONAL EXPERIENCE

Assistant Software Engineer, *PwC Service Deliver Center, Shanghai* July 2018 – Oct 2018
SAP Department. Developed SAP-based APIs for financial reports, material, and storage management using ABAP and OpenSQL.

AWARDS

MITACS Accelerate	2023
Conducting Project <i>Rich, Immersive AR/VR communication</i> in collaboration with <i>Rogers Communications Canada Inc.</i> with a Mitacs Accelerate award with 60000 CAD.	
Latin Award, Magna Cum Laude, New York University Shanghai	2019
<i>Awarded to top 15% of the graduated class</i>	
Dean's List for Academic Year, NYU Shanghai	2015 – 2016, 2016 – 2017, 2017 – 2018, 2018 – 2019
<i>Awarded to top 30% for each academic year</i>	
University Recognition Award, NYU Shanghai	2017 – 2018

LEADERSHIP

ENACTUS NYU Shanghai, Vice President	2016 - 2017
Led the NYU Shanghai's branch of ENACTUS , a world-wide social entrepreneurial student organization. Participated in the user interviews, product design, and prototyping for our project: "A Third Eye: A Digital Blind Crutch". Won the <i>First prize</i> and the <i>Best technology innovation award</i> in ENACTUS social innovation competition of East China, and an 80000 CNY (~12000 USD) grant from the Chinese Charity Association (Shenzhen).
